
Contents

Introduction <i>Christian Gates St-Pierre and Renee B. Walker</i>	1
Chapter 1 • Bone Tools and Bone Technology: A Brief History <i>Genevieve M. LeMoine</i>	9
Chapter 2 • The Importance of the Palaeontological and Taphonomical Analyses for the Study of Bone Industries <i>Carole Vercoûtère, Marylène Patou-Mathis and Giacomo Giacobini</i>	23
Chapter 3 • Technology on Bone and Antler Industries: A Relevant Methodology for Characterizing Early Post-Glacial Societies (9 th - 8 th Millennium BC) <i>Eva David</i>	35
Chapter 4 • Prehistoric Bone Tools and the Archaeozoological Perspective: Research in Central Europe <i>Alice M. Choyke and Jörg Schibler</i>	51
Chapter 5 • Methods, Means, and Results when Studying European Bone Industries <i>Alexandra Legrand and Isabelle Sidéra</i>	67
Chapter 6 • The Use of Bone and Antler Tools: Two Examples from the Late Mesolithic in the Dutch Coastal Zone <i>Annelou van Gijn</i>	81
Chapter 7 • Stability and Change in Bone Tool Use Along the Middle Missouri, North Dakota <i>Janet Griffitts</i>	93
Chapter 8 • Bone Awls of the St. Lawrence Iroquoians: A Microwear Analysis <i>Christian Gates St-Pierre</i>	107
Chapter 9 • A Diachronic Study of Pre- and Post-Contact Antler, Bone and Shell Artifacts from New York State <i>Renee B. Walker</i>	119
Chapter 10 • Bone Disc Manufacturing Debris from Newfoundland to Antigua During the Historic Period <i>Walter E. Klippel and Bonnie E. Price</i>	133
Chapter 11 • Bone Tool Types and Microwear Patterns: Some Examples from the Pampa Region, South America <i>Natacha Buc and Daniel Loponte</i>	143
Chapter 12 • A Preliminary Typology of Perpendicularly Hafted Bone Tipped Tattooing Instruments: Toward a Technological History of Oceanic Tattooing <i>Benoît Robitaille</i>	159
Conclusions: Bone Artifacts and their Importance to Archaeology <i>Sandra L. Olsen</i>	175
